TEST CASE MANAGER · DOCUMENTATION

Export tables to Excel

Export the current page or every item, with the filters you applied.

Export, at the bottom of the table

Current page

The rows you see, in the same order.

All items

Every page, with the same filters.

What comes in the file

Same columns

Same columns and titles as the table, in your language.

Readable values

Translated status and names instead of codes.

Your scope only

Only what you can already see. An empty table cannot be exported.

File name

List name and date, like usuarios_2026-10-29.xlsx.
