TEST CASE MANAGER · DOCUMENTATION

Getting started

Sign in, change your password, pick a language and theme, and find your way around the menu.

First sign-in

New account

Your unit administrator creates it with the team’s default password. On your first sign-in you choose a new one before going on.

Forgot your password?

Ask your unit administrator. They reset it to the default, and you choose a new one at the next sign-in.

Your account

Change password

Settings › Change password. Type the current password and the new one twice.

Language

English, Portuguese or Korean. Saved to your account, on any computer.

Theme

Light or dark, in the top bar. Saved in this browser.

Avatar color

In Settings. Shows on cards and lists wherever your name appears.

The side menu

Item	What it is
Overview	Charts and numbers for your work or your teams
Board	The Kanban of a project, one column per status
Timeline	Who changed which Test Case and when
General Results	Form Factor results per device and date
Projects	The projects of your teams and their Test Cases
Administration	Users, sectors, teams, profiles, audit, device models

Every list shows only what your role and teams allow.
